SUMMARY

Data science and informatics graduate, University of Zimbabwe, with nine months building banking systems at KaribuTech AI. Specialized in explainable ML, REST/GraphQL APIs, and real-time dashboards.

EDUCATION

BSc Honours in Data Science and Informatics - University of Zimbabwe (Upper Second Class 2.1, Aug 2026

EXPERIENCE

- Abitons Construction Company: Project Planning and Design Coordination (Sept 2025 - July 2026)
- KaribuTech AI: Backend Developer and Digital Solutions Intern (July 2024 - March 2025)
- Prodigy InfoTech: Data Science Intern (2024)

KEY PROJECTS

- AeroTwin: Explainable predictive maintenance for aircraft engines (LSTM + XGBoost, RMSE 14.00)
- SensorStream Analytics: IoT data streaming simulation with Modbus, MQTT, and Power BI
- Banking Systems at KaribuTech AI: Drools credit rules API and workflow integrations
